FOOD AND AGRICULTURE SUPPORT PROGRAM
(A GOVERNMENTAL FUND OF THE ENEWETAK/
UJELANG LOCAL GOVERNMENT)**

**FINANCIAL STATEMENT
AND
INDEPENDENT AUDITORS' REPORT**

YEAR ENDED SEPTEMBER 30, 2013

INDEPENDENT AUDITORS' REPORT

Mayor Jackson Ading
Enewetak/Ujelang Local Government
Republic of the Marshall Islands:

Report on the Financial Statements

We have audited the accompanying financial statement of the Enewetak/Ujelang Local Government (EULGOV) Food and Agriculture Support Program (the Program), a governmental fund of EULGOV, which comprises the statement of revenues, expenditures and changes in fund balance for the year ended September 30, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

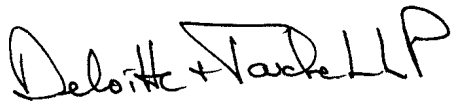

In our opinion, the financial statement referred to above presents fairly, in all material respects, the results of operations of the Program for the year ended September 30, 2013 in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Reporting Entity

As discussed in Note 1 to the financial statement, the financial statement referred to above presents only the EULGOV Food and Agriculture Support Program and is not intended to present fairly the results of operations of the Enewetak/Ujelang Local Government in conformity with accounting principles generally accepted in the United States of America.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 9, 2014, on our consideration of Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financing reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Program's internal control over financial reporting and compliance.

Fund balance at end of year	<u><u>\$ -</u></u>

See accompanying notes to financial statement.

**ENEWETAK/UJELANG LOCAL GOVERNMENT
FOOD AND AGRICULTURE SUPPORT PROGRAM**

Notes to Financial Statement
September 30, 2013

(1) Organization

The Enewetak/Ujelang Local Government (EULGOV) was established pursuant to Public Law 1981-2, the Local Government Act of the Republic of the Marshall Islands, and operates under the Constitution of the Enewetak/Ujelang Local Government. EULGOV is governed by an elected mayor and a fifteen-member council. The EULGOV Food and Agriculture Support Program (the Program) is considered a governmental fund of EULGOV and was established to account for funding received pursuant to Section 103(f)(2) of the Compact of Free Association Amendments Act of 2003.

The accompanying financial statement relates solely to those accounting records maintained by the Program, and does not incorporate any accounts related to any other departments or agencies of EULGOV.

(2) Summary of Significant Accounting Policies

The financial statement of the Program has been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Program's accounting policies are described below.

A. Measurement Focus and Basis of Accounting

The Program reports the results of its operations in one governmental fund. A fund is a separate accounting entity with a self-balancing set of accounts. They are concerned only with the measurement of financial position and are not involved with measurement of results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds).

B. Basis of Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurement" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related liability is incurred.

(2) Summary of Significant Accounting Policies, Continued

C. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(3) Risk Management

The Program is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Program has elected to purchase commercial automobile and marine insurance from independent third parties for the risks of loss to which it is exposed. For other risks of loss to which it is exposed, the Program has elected not to purchase commercial insurance. Instead, the Program's management believes it is more economical to manage its risks internally. In the event of claim settlements and judgments, the Program reports all of its risk management activities in the General Fund of EULGOV. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. No material losses have resulted from the Program's risk management activities for the past three years.

(4) Contingency

Questioned Costs

The Program is subject to financial and compliance audits to ascertain if Federal laws and guidelines have been followed. Cumulative questioned costs of \$2,318,962 reported from FY2010 have been resolved as of September 30, 2013. The Program is considered to have responsibility for any questioned costs that may result from Single Audits of the Program for the fiscal years for which audits have not been performed. The ultimate disposition of any questioned costs can be determined only by final action of the grantor agency. Therefore, no provision for any liability that may result upon resolution of these matters has been made in the accompanying financial statement.
